WE ACCEPT

"Now is the Time to SAVE! Earn* up to \$22,500 Extra Cash in Your Pocket!" Let us Explain How

Dear Friend,

These past few years, energy prices have been tough on peoples budgets. Like you, we're tired of money being "burned" every year to keep your home comfortable. To combat that, we developed a plan to help.

It is what we call our "keep more money in your pocket" approach. You see, every home needs to be comfortable to live, but that comfort doesn't have to come at a high price. New technologies allow us to increase your comfort, while decreasing your costs.

In fact, we have helped save our clients thousands of dollars over the past few years, and we want to help you, as well.

Why? Because the Moyer family believes that the greatest purpose is helping others. That is why we have committed ourselves to that purpose, entirely!

Ready to Save some Green?

I know how hard you work for your money. I also know how valuable your time is. But if a few minutes of time gave you money in your pocket, would it be worth it? How about it then?

But How, You Ask?

Many of today's homes were built using older technology. New technology developed in the last several years increases home efficiency in many ways. Such as:

Hybrid Technology - no longer just for cars. We use multiple ways to heat your home, saving huge amounts of energy.

Thermal Barrier Wrap - keeping heat out of your house in the summer, and inside it in the winter, is much smarter than using energy to remove or replace it.

Water Treatment Technology - did you know having hard water actually costs you money? Or that dealing with chlorine taste and odor can be a thing of the past? Stop spending extra money on bottles of water, water delivery service, extra detergents, soaps, shampoos, clothing that wears out too fast, and many other expenses that can be avoided.

Call 610-683-7364 today, and see when your extra cash is coming!

Your Friends in the Business,

Total Indoor Comfort

Plumbing • Heating • Cooling • Fuel

610-683-7364
Kutztown, PA 19530

610-683-7364 • www.moyercomfort.com • PA949

Interested in a new career? We are always looking for experienced talent to join our team.

* \$22,500 figure is fairly based on average yearly energy savings of \$1000 over 20 years plus upfront discounts up to \$2500

Bride & Groom's Guide

Beath The Heat During A Summer Wedding!

May, June and July consistently rank among the most popular months to get married. These months typically provide pleasant weather, and if it does rain, it's often in the form of a brief thunderstorm.

But summer weather can be extremely hot, and while a sunny, warm day may be perfect beach days, such conditions are not always ideal for weddings, especially weddings that take place outdoors. If wedding-day weather threatens to be very hot, explore these methods to staying cool.

- Choose a later start time. A late-afternoon wedding may be the way to go in the summertime. The temperature usually drops a bit in the early evening, even though the sun won't set for a couple of hours. That lingering summertime sun allows the bride and groom to enjoy an outdoor ceremony and still take beautiful outdoor photos.

- Rely on shade and proximity to water. Shade can be your friend when the sun is blazing. If your outdoor wedding is in the early afternoon, keep temperatures under wrap by seating guests beneath umbrellas or inside a tent.

- Tie the knot near the water. Breezes off of the water also help combat the heat, so a lakeside or beach wedding can make hot temperatures more manageable.

- Wear breathable fabrics. Opt for lightweight fabrics instead of heavy gowns and full tuxedos for the bride, groom and wedding party. Cotton and linen allow air to flow through clothing, helping people to stay cool. Light colors also will help deflect the sun. Bridal gowns made of chiffon, silk or satin may feel luxurious and help tame the heat.

Let experience help you find a house to call your home!

www.kathrynskatering.com

- Have beverage tables. Keep canisters of cold beverages at the ready so guests can easily quench their thirst. Fresh lemonade, iced tea and water with a few sprigs of mint can help guests ward off dehydration.
- Make fans and hand these out to guests. Homemade fans of thick cardstock and popsicle sticks can keep guests comfortable. Such cards can double as thank-you messages or ceremony programs.
- Tailor the reception menu to the weather. A large, heavy meal may not be what guests are hoping for when temperatures are especially hot. In such situations, provide some cool, light fare, such as chilled salads or cold soups, as first courses. Sorbet can be a cool palate

cleanser, and grilled meats and vegetables will make for a satisfying, light main course. Ice cream cake may be a decadent option in lieu of more traditional wedding cake.

- Choose hairstyles and makeup wisely. Brides may prefer up-dos to keep hair off of their necks and allow for breezes to cool their bodies. Rely on makeup primers and powdered foundations so that makeup does not melt in the heat. Waterproof cosmetics are advisable so that perspiration won't cause makeup to run. Summer weddings are preferable, and couples can take several steps to make sure they're both beautiful and comfortable. Beachside locations and lightweight clothing can tame the heat of summer weddings.
