Get Uplifted At Spiritual Holistic Fairs This Holiday

Energize your soul, heart and spirit. Healing vibrations through the angelic arts, through the crystals, knowledgeable like-minded vendors teach about new and holistic alternative methods of health and wellness. The aromatherapy sprays always brighten ones day, changing your attitude. Mostly it is the experiences, the feeling of optimism, like anything is possible. Strangers become friends, like they have known each other from before. Especially this time of year heightens the experience of peace, love, and light. Inspirations encourage tuning out the chatter that doesn't matter, hearing the inner voice, intuition. Aha moments. Peaceful times, more clarity, understanding our unique gifts and purpose in life. Feel some angelic holiday peace, love, and light when you join us at the Angel Holidays Spiritual Holistic Faire at Leesport Farmers Market Banquet Hall, Leesport, pa on Friday, December 18, and Saturday, December 19 from 10:00am to 5:00pm. Admission is \$6.00 (\$5.00 if you donate cat/dog food). Vendor spaces are still available. Please contact me, Kimberlee Dawn, Angel Holidays/Angel Days producer, angel artist 484-363-7356.

SOCIAL SECURITY CLAIMING LAWS ARE CHANGING. NOW IS THE TIME TO REVIEW YOUR OPTIONS. MANY MAY NOT BE AVAILABLE BY APRIL. CALL FOR A FREE CONSULTATION TODAY!

The difference between the best and worst possible outcome is often over \$100,000. Most people think you can do a simple break-even analysis using one of many free break-even calculators available to determine whether to elect Social Security early or wait. However, virtually all of the simple break-even calculators in use today ignore the spousal and survivor benefits available to married couples. There has never been a tool that could offer a thorough analysis to show married couples when to elect their Social Security benefit and whether to use creative election strategies to maximize their income stream - until now.

Using software analysis, we examine hundreds of possible combinations, including 81 possible age combinations across nine possible election strategies, and find the one option that offers the highest expected lifetime benefit.

"What The Mind Can Conceive And Believe, It Can Achieve"

This is a wonderful quote from Napoleon Hill. Thinking about making a New Year's resolution? If so, why not try hypnosis, an effective, scientifically proven tool to help you reach your goals.

Hypnoterapy works! Simply stated, hypnosis is a deep state of relaxation where your subconscious mind is more open to receive ideas and suggestions. It has been described as 'half-awake, half-asleep'. It is very similar to that 'miles away' feeling you probably find yourself in from time to time when you let your mind wander. Hypnotic states are often compared to a pleasant state of relaxation. Everyone experiences this state many times during the day. This includes that time just before falling asleep at night. Meditation, daydreaming, being absorbed in a book or music or television, driving and arriving at your destination without recalling all the usual landmarks... these are a few examples of the state of hypnosis.

Hypnosis is an effective and natural technique for accessing the subconscious mind - the key to unleashing our potential, changing our unwanted habits and behaviors, and finding solutions to our problems and concerns.

Hypnosis is often associated with people on stage quacking like a duck. This is called Stage hypnosis which is fun to watch. It is important to note that the people up on stage are all willing to be silly. Trained stage hypnotists choose these people very carefully. These people desire the attention, are open to suggestion, and are pre-screened to be easily hypnotized. In other words, they choose to quack like a duck in front of an audience.

As with stage hypnosis, it is crucial that you understand that ALL HYPNOSIS IS SELF HYPNOSIS. You can feel perfectly safe under hypnosis knowing that your conscious and subconscious mind will reject any suggestion for which you do not fully agree. You are in control! Let's use weight loss as an example. Hypnosis is a powerful tool for people genuinely motivated to lose weight. In a study of 60 women separated into hypnosis versus non-hypnosis groups, the group using hypnosis lost an average of 17 pounds, while the non-hypnosis group lost an average of only a half pound.

In another study, two dieting groups (one using hypnosis, another not using hypnosis) were followed over the course of two years. The hypnosis group continued to get results, the non-hypnosis group did not. In a meta-analysis study, results demonstrated that adding hypnosis to weight loss treatment increased weight loss by an average of 97% during treatment, and even more importantly, increased the effectiveness of post treatment by over 146%.

Hypnosis can produce life-long positive changes in the manner in which you approach dining, smoking, handling anxiety/depression and more. For more information contact Lori Kleinsmith, Certified Hypnotist, Pinnacle Hypnosis and Therapies, 610-823-4160, www.pinnaclehypnosis.com.

SAVE THIS DATE: Quit Smoking, group hypnosis session, Tuesday, January 5, 2016 at 6:30. Reservations required, \$75pp. Located: Inner Peace and Wellness Center. 202 S. Third St., Hamburg, PA 19526

How To Buy A Toy For Your Child This Christmas?

Buying toys for children is more than just pulling a toy off the shelf. Looking for toys that are occupation-based enhance the child's education. The definition of occupation is any activity that a person completes in a day's time, according to occupational therapy. If there is a purpose behind the toy, it will encourage their occupations in life. Any toy that does the following is a great choice:

- Encourages the use of both hands to operate the toy, or bilateral integration.
- Promotes the movement of the small muscles of the fingers or fine motor skills. Look for gears, buttons, and knobs.
- Moving, jumping, running, walking and skipping are examples of gross motor skills. Look for anything to encourage movement.
- Cognitive development is crucial for all aspects of a child's growth. Any toys that promote creativity embeds cognition into the benefits of the toy.
- Toys that encourage the interaction between adults and children will enhance the emotional growth of both parties. Look for board and card games.
- As you are looking for a toy for an infant or toddler, search for items that keep these components involved. For elementary children, search for toys that will imitate future roles, especially using tools such as pens, pencils, crayons, scissors, etc. For teens, keep them moving! By all means, keep it fun. Engaging toys yield engaged children. Engaged children yield children learning about their world. Also, have fun looking!

Please feel free to contact me anytime to ask questions regarding toys for children of any age. Cheri Dotterer, Handwriting Specialist, Occupational Therapist, Therapy Services, www.yourtherapyservices.com. A great place to find Melissa & Doug and other toys is the Treasures Through Generations, 1064 Memorial Hwy., Oley, PA 19547.
