**Quit Smoking With Hypnosis**  
 by Lori Kleinsmith, Certified Hypnotist

Many people have good intentions to quit smoking. Then something triggers them to fall back into the dangerous habit. Many times it is the ugly stress monster. How will hypnosis help you quit and what is hypnosis? The word hypnosis itself is defined by being an altered state of consciousness or awareness where the individual under hypnosis appears to be in a trance-like state. Hypnosis is commonly used in the treatment of a variety of physiological and physical problems. It is currently utilized in the treatment of pain control, weight issues, stress management and addiction problems. There is statistical information that shows that for some, it does indeed work, and very well. There are many variables. The basic principle of hypnosis for quitting smoking is to bring those unhealthy thoughts to the surface and to replace them with more positive thoughts that encourage the smoker to cease leaning on something so dangerous to one's health. In many cases, a hypnotherapist will also teach the individual the art of self-hypnosis. This gives control to the individual not the cigarettes. There is no doubt that hypnosis itself, in general, doesn't work for everyone. Nothing works for everyone. Some people have reported that after just one session, they were 'turned off' to the idea of ever smoking again and simply did not want to smoke any longer. Many of those reported that this had worked for them indefinitely.

While still others reported similar immediate results, but having had relapsed during high stress moments and fell back into the smoking habit once again. For this reason, most hypnotherapists will suggest to their clients that they continue with self-hypnosis, even once they consider themselves smoke free. It is important to be ultra-aware when you are dealing with stressful moments and make sure you turn back to smoking cessation therapies before you turn back to a smoke. # I Don't Need To Advertise

You're Right... There is a time **NOT** to advertise, when...

1. You have no competition.
2. You have all the business in town.
3. There are no new people moving into your area.
4. You want to keep your large inventory.
5. You have more business than you can handle.
6. The birth rate is zero.
7. You have more than enough friends that shop your business, keeping you far too busy.
8. You've netted your third million (after taxes).
9. You have no desire to work hard.
10. You would have to hire more people to handle the additional business advertising brings.

**The time to start advertising is...**  
When you don't agree with all the above.

**The place to start advertising is...**  
The one that has a combined circulation of 71,500 homes.
