**READER'S Recipe**  
  
**STUFFED LEG OF LAMB**  
 1 (5 pound) Boneless Leg Of Lamb  
 Salt & Black Pepper To Taste  
 1 (10 ounce) bag Fresh Spinach Leaves  
 6 ounces Goat Cheese, or more if needed  
 2 Tsp. Pine Nuts  
 Kitchen Twine  
 1 C. All-Purpose Flour  
 1 Tbsp. Salt  
 1 Tbsp. Ground Black Pepper  
 1 Tsp. Dried Thyme  
 1 Tsp. Fennel Seeds  
 1 Tbsp. Sesame Oil  
 Remove plastic netting or twine from around the leg of lamb, if any, and open up the roast on a cutting board. Place the boned side of the roast up. With a sharp paring knife, cut away any excess fatty areas. Use a sharp knife to cut 1/2-inch deep slits in the meat about 2 inches apart, to help the meat lie flat. Cover the meat with a sturdy piece of plastic wrap or a cut-apart food storage bag, and pound the meat with a mallet or the edge of a small plate until the roast is about 3/4-inch thick everywhere, and 10 to 14 inches square. Preheat oven to 400 degrees F. Sprinkle the upper side of the meat with salt and pepper, and then spread spinach leaves over the top of the roast to within 1/2-inch of the edges. Break up the goat cheese and sprinkle it evenly over the spinach, then sprinkle the pine nuts over the cheese. Roll the roast up into a tight cylinder, and tie the roast together with kitchen twine at 2-inch intervals. It's okay if a little stuffing protrudes from the sides of the roast. In a flat dish, mix together the flour, 1 tbsp. of salt, 1 tbsp. of pepper, the thyme, and the fennel seeds, and press the tied roast firmly into the flour mixture to coat all sides. Heat the sesame oil in a heavy oven-proof or cast-iron skillet over medium-high heat until the oil shimmers, and sear all sides of the roast, including the ends, to a golden brown color. Lay the roast into the skillet, place into the preheated oven, and roast to your desired degree of doneness, or an internal temperature of 145 degrees F for medium, about 40 minutes. Remove from the oven, cover with a doubled sheet of aluminum foil, and allow to rest in a warm area 10 to 15 minutes before slicing.

# Thinking About Your Trees?

**Tree Removal and Stump Grinding Can Be Done Any Season...So Can Pruning, But The Healthiest Time To Prune Is While The Tree Is Dormant.**

Leaves produce the food for the tree, so removing branches in leaf decreases 'food making' and slows growth, whereas, pruning a tree in the dormant season invigorates growth, bloom and fruit production. Usually by pruning in the dormant season, the tree is not left exposed to the hot summer sun, and the vigorous growth it encourages helps wounds close faster.

Estimates are free, and at that time we can assess the trees in question and give you a more individualized evaluation and management strategy. It is best to get on our schedule early so we can find the best time to care for your trees. We look forward to hearing from you. We are at your service.
