Short Term Care (Respite) Is Available

Located on 8 acres high on the hill, we come from the "old school" - Bern Elementary - where home cooking, quality care and 45 years experience is available at affordable prices.

We have 36 spacious rooms, to provide for 49 residents, with views of open fields. A "welcoming" social area with 2 large fireplaces and window seats completes our home.

Quit Smoking With Hypnosis

By: Lori Kleinsmith, Certified Hypnotist

Many people have good intentions to quit smoking. Then something triggers them to fall back into the dangerous habit. Many times it is the ugly stress monster or the thought that you can bum just one. Anyone who has tried to quit can tell you, you can't bum just one. It leads to two, then three and very soon you start buying packs. How will hypnosis help you quit and what is hypnosis? The word hypnosis itself is defined by being an altered state of consciousness or awareness where the individual under hypnosis appears to be in a trance-like state. Hypnosis is commonly used in the treatment of a variety of physiological and physical problems. It is currently utilized in the treatment of pain control, weight issues, stress management and addiction problems. There is statistical information that shows that for some, it does indeed work, and very well. There are many variables. The basic principle of hypnosis for quitting smoking is to bring those unhealthy thoughts to the surface and to replace them with more positive thoughts that encourage the smoker to cease leaning on something so dangerous to one's health. In many cases, a hypnotherapist will also teach the individual the art of self-hypnosis. This gives control to the individual not the cigarettes. Hypnosis doesn't work for everyone. Nothing works for everyone. Some people have reported that after just one session, they were 'turned off' to the idea of ever smoking again and simply did not want to smoke any longer. Many of those reported that this had worked for them indefinitely. While still others reported similar immediate results, but having had relapsed during high stress moments and fell back into the smoking habit once again. For this reason, many hypnotherapists will suggest to their clients that they continue with self-hypnosis, even once they consider themselves smoke free. It is important to be ultra-aware when you are dealing with stressful moments and make sure you turn back to smoking cessation therapies before you turn back to a smoke. For more information or to schedule your appointment, contact: Lori Kleinsmith, Certified Hypnotist and owner of Pinnacle Hypnosis & Therapies. 610-823-4160 www.pinnaclehypnosis.com. Easy to find at: 400B South Fourth St., Hamburg, PA 19526. Offering a full-range of Hypnosis. Sessions are individualized to each clients unique needs.

READER'S  
**Recipe**

## SLOW COOKER SALISBURY STEAK

2 pounds lean ground beef	2 tablespoons vegetable oil
1 (1 oz.) envelope dry onion soup mix	2 (10.75 oz.) cans condensed cream of chicken soup
1/2 cup Italian seasoned bread crumbs	1 (1 ounce) packet dry au jus mix
1/4 cup milk	3/4 cup water
1/4 cup all-purpose flour	

In a large bowl, mix together the ground beef, onion soup mix, bread crumbs, and milk using your hands. Shape into 8 patties. Heat the oil in a large skillet over medium-high heat. Dredge the patties in flour just to coat, and quickly brown on both sides in the hot skillet. Place browned patties into the slow cooker stacking alternately like a pyramid. In a medium bowl, mix together the cream of chicken soup, au jus mix, and water. Pour over the meat. Cook on the low setting for 4 or 5 hours, until ground beef is well done.
